### **DETAILED ACTION**

## Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1, 2, 4-7, 9-11, 33, and 35-38 are rejected under 35 U.S.C. 103 as being unpatentable over Engelson USPN 5,095,915 in view of Dobak III et al USPN 6,096,068.

Engelson discloses the invention substantially as claimed being a medical device comprising an elongated wire core member 38 having a distal end having a tapered and constant radius portions [3:60-4:2], a polymer jacket (44) free of a coil having a textured surface comprising a helical groove having an inner diameter smaller than the diameter of the jacket and spaced 3 cm from the distal tip [1:67-2:2] and a coating disposed over the polymer jacket [3:60-4:2]. However, Engelson does not disclose that the helical groove has rounded edges.

Dobak teaches the use of a catheter comprising an outer member having a helical groove with all edges being rounded in the same field of endeavor for the purpose of minimizing the possibility of damage to the vessel wall.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the helical groove of Engelson to have all rounded edges

Art Unit: 3738

as taught by Dobak in order to minimize the devices chances of damaging or puncturing the vessel wall.

## Response to Arguments

Applicant's arguments with respect to claims 1, 2, 4-7, 9-11, 33, and 35-38 have been considered but are moot in view of the new ground(s) of rejection.

#### Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTOPHER D. PRONE whose telephone number is (571)272-6085. The examiner can normally be reached on Monday through Fri 8:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on (571) 272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
